Kiosk

Features

- Metal or Injection Molded Plastic Computer Enclosure
- No Exposed Cables, Wires or Ports
- Small Footprint
- Premium Quality Components
 - 15" 17" or 19" Active Matrix LCD
 - Intel High Power Computer System
 - Responsive Touch Screens
- Internet Ready
- Plug and Play

Applications

- Retail Sales & Customer Services
- Healthcare
- Food Ordering - QSR
- Government Services
- Hospitality
- Visitor Information
- Ticketing Systems
- Automation & Control Systems
- Human Resource Programs
- Certification & Testing

Options

- Bar Code Readers
- Magnetic Card Readers
- Stereo Speakers
- Cameras
- Telephones
- Tamper Proof & Moisture Resistant Keyboards
- Integrated Wireless Connectivity
- Biometric Devices
- Check Readers (MIRC)
- mPale Antibacterial Coating
- HIPPA Privacy Filter

Branding Opportunities

- Overhead Signage
- Bezel Silk Screening
- Custom Add-ons

CounterPoint

Completely Integrated Counter Top Touch Screen Kiosk System

The CounterPoint is a fully integrated countertop kiosk solution that unites the best kiosk features in a compact, durable and aesthetically pleasing design.

The CounterPoint joins a 15, 17 or 19 inch LCD panel, responsive touch screen, and Intel based high powered computer with an injection molded plastic or cast metal housing just slightly more than four inches deep. The CounterPoint is ideally suited to display Internet applications, motion picture quality video, text and graphics in almost any environment.

The CounterPoint is designed to withstand the demanding conditions of public installations and can be counted on for hassle-free and uninterrupted use. Only industrial grade components are mounted to CounterPoint's steel substructure, and the system's power supply, wires and cables are fully integrated inside the kiosk. Sealed buttons, ports and slots prevent tampering, and the spill-resistant, sealed construction protects against dust, dirt and moisture.

The CounterPoint kiosk system is plug-and-play. To create an instantaneous Internet access station, customer service center or interactive exhibit, just remove CounterPoint from its box, load your website or custom application, and plug the system into a standard electrical outlet.

The form and functionality of the CounterPoint system also make it an exceptionally flexible kiosk solution. The system may be manufactured in any color or texture and may be branded to give the system a unique appearance or match the décor of an installation site. A wide range of peripheral devices including bar code readers, magnetic swipe readers and video cameras, may be seamlessly and securely integrated with the CounterPoint, giving the system the ability to support even the most complex applications.

Celeron / Core2Duo Board Configuration

LCD DISPLAY OPTIONS:

- 15" Active Matrix 360 NIT LCD Panel (1024 x 768)
- 17" Active Matrix 360 NIT LCD Panel (1280 x 1024) (Steel Bezel)
