- HIPAA Privacy Filter - Touch Enabled

Branding Opportunities

- Overhead Signage
- Bezel Silk Screening
- Custom Add-ons

WallStation Pro

Vandal Resistant Self Service Touch Screen Kiosk

Questions? Call 888.587.1777

Space Saving: Save space with SeePoint's WallStation wall mounted kiosk. The WallStation's computer ports, switches, and power supply are totally contained inside the system--without exposed cables or bulky cabinetry.

Unlike a tablet, a wide range of peripheral devices, including bar code readers, magnetic swipe readers and biometric readers, may be seamlessly and securely integrated with the WallStation, giving the SeePoint system the ability to support even the most complex applications. Add cellular or a WiFi connection to enable the kiosk to run its application virtually anywhere.

The SeePoint WallStation is also capable of withstanding the rigors of unattended or demanding kiosk installations, separating it from tablets that claim to be suitable for public use. Only industrial grade components are mounted to the WallStation's substructure and are covered by a protective cage, which gives the system a toughness and stability not found in many other products. All SeePoint kiosks can be counted on for hassle-free and uninterrupted use.

The WallStation's fully integrated power supply provides unique advantages. The kiosk is available to your users 24/7 and never requires recharging. Additionally, this kiosk is highly vandal resistant and may be installed in virtually any location or on any surface because all system components, including the power supply, are contained within its compact housing.

SeePoint's WallStation may be equipped with a range of peripheral devices, each of which is seamlessly and securely integrated into the kiosk. With support for a host of scanners, readers, keyboards and other devices, the WallStation is easily configured to deliver functionality tailored to your organizational, customer and employee needs.

Shown with 19" LCD & Optional Keyboard-TrakBall

SPECIFICATIONS

LCD DISPLAY OPTIONS:

- 24" LED Widescreen LCD Panel (1920x1200) (Steel Bezel)
- 22" LED Widescreen LCD Panel (1680x1050) (Steel Bezel)
- 19" Active Matrix 360 NIT LCD Panel (1280 x 1024) (Steel Bezel)
- 15" Active Matrix 360 NIT LCD Panel (1024 x 768)

TOUCH SCREENS:

- Surface Acoustic Wave (Standard and Secure Tempered)
- Projected Capacitive
- HIPAA Compliant Privacy Touch with SAW Technology
- AEGIS Antimicrobial Coated Touch Screens

INTEL COMPUTER:

- MX61H LGA1155 supports INTEL Core™ i7/i5/i3 and Celeron® Processors
- Realtek® RTL8111E Gigabit LAN Controllers

MEMORY:

- Supports DDR3 SODIMM system memory up to 16GB

STORAGE:

- 120 GB Solid State Drive (SSD)
- 1 Terabyte Shock Mounted Sata II HDD

OPERATING SYSTEMS:

- WINDOWS 10
- WINDOWS 8
- WINDOWS 7

GRAPHIC SUPPORT:

- Supports Dual Displays
- Intel® DVMT 3.0 supports 1.7 GB Video Memory
- Intel® Graphics Media Accelerator 950

AUDIO:

- Realtek® ALC892 HD Audio
- 5.1+2 CH 5W Amplified Audio
- Supports Dual Audio Stream

MULTI I/O:

- 2 x COM
- 1 x VGA port
- 1 x DVI port
- 4 x USB 2.0/1.1
- 2 x RJ45 Port
- 5.1 CH Audio I/O (3 jacks)

HARDWARE MONITORING:

- Monitoring for CPU and system temperature, voltage and fan speed

EXPANSION SLOTS:

- 1 x PCIe slot (not customer accessible)

ENVIRONMENT:

- Operation temperature: 0C to 60C (32F to 120F)

WEIGHT:

- 12 to 16 LBS. (Dimension PDFs available at www.seepoint.com)
